MOOOI CARPETS PRESENTS

SIGNATURE COLLECTION NR.7

We proudly present our 7th Collection with this new Catalogue. Last year we have had the privilege to work with some inspiring new designers that created their new Signature design for us. Every year we ask a lot of designers to think of a concept that gets the most out of our technology, to take that step further than to create just a carpet. The designers, that do succeed to design their perfect signature carpet, amazed us by their story behind a design and the result of the carpet itself when it is finally finished and ready for you to order. We listen to what designers want to tell with their design and we are happy we could make some new design dreams come true with Moooi Carpets. We hope you like our new collection.

SIGNATURE COLLECTION BY KIT MILES

Akira Collection - Akira Vermilion
BY KIT MILES

"Dynamic patterns steeped in the tradition of textiles, reinvented for today"

ABOUT THE COLLECTION

Akira's abstract composition and rush of pigments prompts illimitable flights of imagination. The non-figurative nature of the design, as if a neon-lit sleepless cityscape is suggestive of reflections of vibrant flowers in pools in a rainstorm; a blurred view from a rain-streaked taxi hurrying through a metropolis. Colours drag indeterminately into one another, giving a sense of motion, supercharging space with a cinematic quality. Tones are artfully selected combined to create a sense of richness, warmth, and texture. Akira is available in different colorways Water Lily, Vermilion, Navy, Moss, Stone, Peony Red, Emerald

ABOUT THE DESIGNER

"I wanted to create something else which exploited the unique production capabilities of Moooi Carpets, and which couldn't be created by traditional methods alone. The designs were conceived to help create a strong scene of place from House to Hotel offering dynamic patterns steeped in the tradition of textiles, reinvented for today. The resulting collection represents a diverse palette of useable coloured rugs and carpets, created by designers for designers."

CORINTHIAN CHECK

A playful reimagining of elements of classical architecture. Orderly geometric shapes are loosely rendered in broad strokes of pigment colour, giving an abstract impression of what could be arches, windows and doorways. This large-scale design was inspired by the notion of a transient city made of pigments and inks. Rendering classical concepts of proportion with free and open marks and a joy of colours, a vast watery city looms as if it were a mirage in the hazy distance, setting a visionary, theatrical backdrop.

Colorways: Cobolt, Jewel & Spring

"Design is an educated approach to spaces and objects that involves sensitivity, aesthetics and function, memory and relationships."

ABOUT THE COLLECTION

Sun-soaked landscapes echoing the horizon line, where the land meets the sea, offered inspiration to Cristina Celestino's new collection of carpets for Moooi, hence its name - Mediterraneo. Surrounding environments of lush greenery, flourish between urban interspaces, springing behind walls and hidden courtyards. The carpets' layering abounds of perspective games, perceptual overturns and unexpected change of views. Celebrating the South with its sensorial and surreal settings, cultural depth, and its ability to astound.

ABOUT THE DESIGNER

Innate freedom of observation, erudite, curious and playful. A great capacity for scientific and aesthetic investigation. Obsessed by material and geometry, she moves across history and traditions, altering the scale of objects, creating new conceptual and decorative canons, where nature speaks to us in unanimity. She intertwines a transdisciplinary approach with analytical rigor, leading to unexpected spaces, objects and experiences. Cristina Celestino (*1980, Pordenone) established her studio in Milan in 2013. After graduating in 2005 from the IUAV School of Architecture in Venice, she worked with various design studios, focusing on interior architecture and design. In 2011 she created her own design brand, Attico Design. The activities of Cristina Celestino and her studio range from residential, hospitality and commercial projects to creative direction and product design.

SIGNATURE COLLECTION

SAND CARPETS by sjoerd vroonland

We all have childhood memories of playing with sand on beaches, creating all kinds of creatures, shapes and forms. Something magical happens there in the sand which drives our imagination.

The nature of sand is known for its fluidity and cohesion. These carpets show the intensity between its natural behaviour, its gravity and the manipulation of shaping patterns. Shining a light on what you want to focus on to reveal the natural beauty of the elements. Sand shaping is by definition a sensorial experience. The collection exists of six shaped rugs in 2 colorways.

DETAIL OF ORBITAL RUG BY SOERD VROONLAND

"A visual language that delivers smiles in a time where life isn't always easy"

ABOUT THE COLLECTION

Transforming a small ceramic design into a large 2D carpet is an interesting creative process. The interpretation of the design changes so finding the right designs was a fun challenge, with a very exciting outcome.

ABOUT THE DESIGNER

Jae Yong Kim loves donuts. Being an artist was his dream, and instead of eating them, he decided to use them as a canvas.

In 2012, Kim put his first solo show of donuts on display. The exhibition "Lust for Donuts" was a concept he was working on since 2010. Most of his work used to contain little colours due to colourblindness. He used these donuts as a basis for making colour tests and ended up feeling comfortable with the results. The overwhelming response helped him to overcome his fear of using colours and revolutionised his donuts. "Each donut is hand-thrown, hand-painted and then glazed – and no two are alike".

Kim sees his work as a visual language that delivers smiles in a time where life isn't always easy. The more challenges he faces, the brighter and shinier his work tends to be. It gives him strength and joy while creating it. Besides creating donuts, Kim teaches ceramics at the Seoul National University of Science and Technology.

"Redesigning and reinventing with the use of old and new blended fabrics"

ABOUT THE COLLECTION

Atelier Reservé redesign and reinvent a combination of old and new blended in a unique Re-cut carpet Signature collection with strong Japanese references. The five carpets and broadloom pattern are an unique outcome of what happens when driven fashion designers (that mostly work with "' re-cut" worn fashion waste) go off the beaten track by designing a carpet collection in their unique signature style.

ABOUT THE DESIGNERS

The brand's focus is on redesigning and reinventing garments by using a combination of old and new blended fabrics, with uniquely designed Japanese and tattoo references. Not surprisingly, the brand's design philosophy and aesthetics have led to admiration and representation around South-East Asia, with exclusive high-end retail partners in Hong Kong, Singapore, China and Japan.

Without explicitly highlighting its sustainable and organic nature, Atelier Reservé gives an authentic touch to quality garments and embraces the aging process that naturally occurs as a result of day-to-day wear and tear. For Atelier Reservé, 'one-of-a-kind' means each garment has its own story with its own unique shape. All garments are made by hand, by a small team at a workshop in Amsterdam. That's why colours, shapes and details vary. The consistency is in the love for handwork, quality materials and the free-spirited nature of the makers. Atelier Reservé follows its own nonconforming path and invites its wearers to do the same.

Atelier Reservé is an Amsterdam-based niche brand that has been creating oneof-a-kind garments since 2016. The two 'Reserve Boys' behind the brand, visual artist Alljan Moehamad & designer Deyrinio Fraenk, are focused on bringing old stock fabrics, used materials and vintage garments back to life.

SIGNATURE COLLECTION BY FERRY SCHIFFELERS

"Pluck their Petals' is inspired by the greatest love tragedy whether he loves me – or not"

ABOUT THE COLLECTION

'Pluck their Petals' is inspired by the greatest love tragedy whether he loves me – or not. Multiple layers of tulle petals build up a gradient of colour causing a mysterious, yet romantic and dramatic dimension. The technique of layering creates more depth and darkly shadowing in the creases, turning the carpet into a fantasy like destination somewhere between a dream and a nightmare.

ABOUT THE DESIGNER

Ferry Schiffelers founded his eponymous womenswear label at the age of 25. In 2018, Schiffelers graduated Cum Laude from the design department at AMFI (Amsterdam Fashion Institute). His graduation collection 'Défilé de Deuil' ensured that he won the Lichting prize and was named the most promising graduate of 2018. In September 2019, Schiffelers presented his first independent collection 'Ladies Who Lunch' during AFW (Amsterdam Fashion Week). Prior to AMFI, he followed the 4-year Fashion / Bespoke tailoring course to develop himself in the field of tailoring and techniques. Schiffelers has successfully completed internships in the couture atelier of Viktor & Rolf and Antwerp designer Tim van Steenbergen. His work is being published in Vogue, ELLE and Mirror Mirror magazine.

SIGNATURE COLLECTION BY VISSER & MEIJWAARD

"Silk ribbons woven into a colourful graphic for a bold interplay of lines"

SIGNATURE COLLECTION BY VISSER & MEIJWAARD

In our 'Lint' carpet collection silk ribbons are woven into a colourful graphic pattern to create a bold interplay of lines.

ABOUT THE COLLECTION

Inspiration for our 'Lint' design we found in the rectilinear pattern of a traditional tartan textile, made by weaving alternating strips of coloured threads, both in the warp and in the weft, at right angles to each other.

'Lint' was created by playing with the materiality and the size of the threads and in search of the right colours to contrast but complement each other at the same time.

ABOUT THE DESIGNERS

Visser & Meijwaard is a designstudio focused on product- and scenographic exhibition design based in Arnhem, The Netherlands. The studio is run by Dutch designers Vera Meijwaard and Steven Visser who met at ArtEZ University of the Arts. As a design duo they create distinct but minimalistic products from an aesthetic world of material, colour and shape. Their working method is associative. By playing with materiality, context and scale and with a fascination for 'form follows function', Visser & Meijwaard researches new applications for the hidden aesthetics found in everyday products.

Their wide range of work extends from furniture and lighting to textile, ceramic and glassware. Visser & Meijwaard collaborate, among others, with brands as Hermès , Linteloo and Pulpo Products. Their work has been presented in museums, galleries and fairs worldwide, including London, Paris, Milan, New York, Tokyo, Hong Kong, Barcelona, Cologne and Copenhagen.

The synergy between the artist, the material and anunknown presence, that she calls "force"

"I'm a tireless explorer"

ABOUT THE COLLECTION

The carpets of Emma Larsson's In The Meadow collection are inspired by the never-ending wonders of nature. With whimsical and abstract shapes, the carpets depict mesmerising worlds of aquarelle art. The bright and soft colours are an ode to nature's variety. In The Meadow is Emma Larsson's contribution to bringing nature indoors, into your space, like ink in water. The intensity of colours creates density while maintaining that ethereal feel.

ABOUT THE DESIGNER

Emma Larsson (a.k.a. @zebrakadebra) is a Stockholm-based artist and illustrator. Her work strikes the balance between colourful dreamscape and inarticulable melancholy. Emma has evolved her practice to include expressive and organic watercolors, alongside paintings created with oil and acrylic. She describes her work as an ongoing exploration without rules and conventions, continually generating new forms, patterns and themes. Emma has collaborated with brands and agencies including Rachel Comey, Show Studio, and Winsor & Newton.

Emma Larsson was born in Gothenburg, Sweden in 1977. Since her teenage years, Emma has had her own art studio. Even though she studied art, she didn't get a higher art education because she started to have a big family. She considers herself self-taught. Now that her children are getting older, her full-time commitment is to her Art. "I'm a tireless explorer. If I become too comfortable and feel I know too much of a subject, I get bored. What I am constantly seeking for needs to be unknown to me. Creating my art is about playing and exploring freely. If I am asked to describe my work, I can only come up with words such as: liquid, energy, shapes, rhythms, playful, nature's wonders, curiosity, contemplation, poetry, freedom, meaning, longing, intuition."

In The Meadow Collection- Wasp II by emma larsson

"We all have our inner child that makes our stories and dreams become real"

ABOUT THE COLLECTION

Italy is not a country, it is a sea of stories. Its imaginary is waved of infinite magic stories coming from North to South and from West to East. By shaking and mixing these stories come to life in BISANTO, a collection drawn by the intimate memories of a child playing with iconic souvenirs coming from his memories of antique ages. The idea is to transform the Byzantine Italy into a Carpet Collection by playing with drawings and colors. The result are Luxurious Textile Mosaics printed on carpets able to represent new characters and worlds.

ABOUT THE DESIGNER

Antonio Aricò is an Italian artist, designer and creative director. After earning a double degree at Milan Polytechnic he obtained his master's degree with a work based on the themes of Design & Tradition, combining the fields of art, craft and design. These theories merged with the poetic of contemporary culture, make up Aricò's inter-disciplinary practice today. He is known as forerunner of a unique approach that parallels crafts and self-production with industrial design. With each new project he approaches design themes, preferring to focus on the romantic, fantastic and archetypical rather than just the functional. In this universe the coldness of industrialism is replaced by the poetry, fantasy and romance of our past, vividly brought to life in contemporary days.

Liquid Layers Collection - Agate Organic BY CLAIRE VOS

"Draw the realm of dreams close"

ABOUT THE COLLECTION

The Ripples collection by Andrés Reisinger show the fluid motion of a single drop falling into water. As soon as the drop hits the surface, a dance of scattering rings follows. Still water transforming into concentric circles that vanish when hitting the sides of the glass, almost hypnotically. The photo-realistic carpets carry the typical Reisinger's signature style. Characterised by a conceptual approach, bridging the imagined and tangible. Ripples gives us a calm, fluid, and focused world where time seems to move more slowly.

ABOUT THE DESIGNER

Creating at the intersection of art, design, and direction, Andrés Reisinger bridges the imagined and the tangible. Conceptual yet accessible, his immersive 3D visuals, otherworldly compositions, and experimental use of texture draws the realm of dreams close. Hailing from Buenos Aires and based in Barcelona, Reisinger applies over a decade's worth of experience working with the likes of Apple, Microsoft, and Samsung to challenge the boundaries of diverse media. His progressive spatial experiences and hyped collectible pieces have earned him recognition in the Forbes 30 Under 30 Europe, ADC One Club Young Guns, and the AD100, among others.

HET FEITHHUIS, 2021

Vos Interieur, in collaboration with Claire Vos / Studio Roderick Vos, provided the historic spaces of the Feithhuis with specially designed Moooi Carpets carpets. These carpets were the reason for the entire 'Liquad Layer' collection that was presented internationally in 2021 by Moooi Carpets and Moooi. With the 'Liquid Layers' series, Claire Vos created a design technique where the possibilities are infinite, resulting in a unique approach towards pattern design that surprises layer by layer. The Feithhuis is a monumental building on the Martinikerkhof in the city of Groningen in the north of the Netherlands. The current building dates from the early eighteenth century, it stands on the site where the former Martinikerk used to be. The building owes its name to Johan Adriaan Feith, who started to live there in 1890. Today the building has a special restaurant function in the historic heart of this Dutch city.

Nieuwe Herengracht

Marcel Wanders Studio, 2019

ABOUT THE PROJECT

Once used as the 2nd Melanchthon School, headed by Phillip Melanchthon a German philosopher, theologian and the right hand of Martin Luther, the studio building has served as a school, expanding in size throughout its history. The typical Amsterdam canal house is situated in the Plantage neighbourhood close to the city's beloved botanical garden. Today, the building is home to over 40 designers who arrive each day to share surprising and inspiring design with the world. Throughout the space, visitors discover a simple design concept that allows attention to be given to our beautiful designs placed in all areas of the workspace. More than a gallery of bespoke furnishings, one-of-a-kind objects and exhibition pieces. The studio life is rich with traditions of family portraits, moments of unique celebration and a desire to work and play as one big family

MILLA NOVO PROJECT, 2021

A Your Own Desgin collection of carpets named 'Orb' has been created by Milla Novo and Moooi Carpets. They incorporate the knotting technique and metallic ropes from Milla Novos signature wallhangings and take inspiration from shapes typically seen in the indigenous Mapuche culture of South America. The orb is other worldly, mysterious, and full of positive energy.

"The boutique hotel Feeling at home"

Lagrand Interiors Design studio

ABOUT THE STUDIO

Functioning as a connection between the generously sized kitchen and the serene living room, the play and television room is the spot for the kids of this household to relax and go crazy. To achieve a playful and fun way to incorporate the surrounding nature into the home, we chose bold wallpaper with a pattern of leaves. Because of the round shape of this room, nature literally surrounds you. The circular shapes became a recurring element by adding a sofa with funky curves and a round carpet to ground the separate items. With such a present pattern on the walls we needed a more smooth flow in the rug, which we found in the vintage patina look of the Patina Moss rug. By mixing a more graphic pattern with this softer piece and the texture in the sofa, you get a playful combination where the different elements are balanced out.

This is very characteristic for the way we work. We balance colours, patterns and textures to achieve a peaceful, colourful and luxurious feel in the homes we create. By using muted colours that stem from nature, we design warm spaces that make you feel instantly at home. Textures play a big role in the luxurious atmosphere and by making sure every tiny detail is right, we ensure that tailor made, warm, soft hotel bathrobe feeling that you never want to take off. Lagrand Interiors is run by Linda Lagrand since twelve years. She has since created numerous residential and commercial interiors where the five star hotel experience resonates. Her Norwegian roots bring her to nature; her Rotterdam location adds sparkle and dynamics and her love for art and craftsmanship is the finishing touch to her signature.

AVA'S PAINTINGS

Masterly Milan & Rive Roshan Studio Amsterdam 2021

ABOUT THE PROJECT

'Ava's Paintings' are a series of carpets made by 3 year old artist daughter of Rive Roshan, Ava Paloma. Like many, during the various lock-downs over the last two years the personal lives of Rive Roshan became a part of their daily ritual. Having their daughter in the studio each day meant that she could use her time painting and delving into her imagination whilst the studio continued on their projects. During Masterly Milan 2021 Rive Roshan will present the first carpet of the collection of paintings produced in collaboration with Moooi Carpets titled "The Sky Owls and The Puddles". Alongside the carpet the studio will reveal a new range of 3D printed sand objects inspired by Ava's Paintings. These pieces are released to share the free spirit of childhood and make it a part of our daily lives and homes.

Design by Ava Paloma

HÔTEL RICHER DE BELLEVAL MONTPELLIER | FRANCE 2021

A unique place steeped in history in the heart of the city

Hôtel Richer de Belleval is a private mansion that has become a Hotel-Restaurant in the heart of the city, for lovers of gastronomy, art, culture and history. A place restored by a team that was concerned with a successful rehabilitation. The cabinet Philippe Prost, the Atelier de Ricou, Christian Collot, the Pourcel brothers, all architects, directors of ambiance, restaurateurs and chefs worked in the requirement without upsetting the origin of the building. They preserved floors, frescoes and paintings and set up installations, works of contemporary art and objects that awakened emotion and gave this timeless cachet that will transcend time.

Consulate of the Netherlands

Minbuza Milan, 2022

ABOUT THE PROJECT

The Consulate of the Kingdom of the Netherlands has recently moved to a new location, the old Campari building in the heart of Milan. Hybrid Working is the starting point for the office environment where the focus is on encounters. It offers a platform for the business community, both in the cultural sector and beyond. This is how the idea arose for a catwalk that is applied in the full length on the central axis. The use of color and patterns by Gio Ponti was a source of inspiration. The translation has been made to the Blended Cloudy Blue carpet tiles by Moooi Carpets, designed by Studio RENS.

BAYERISCHE STAATSOPER, 2021

INTERIOR DESIGN BY MARCEL WANDERS STUDIO

Within the Bayerische Staatsoper is the restaurant Ludwig Zwei, where guests journey through an emotional, surprising visual experience. From one interior space to the next, bespoke furnishings and premium materials are perfectly paired, creating an ensemble of dramatic flair and sophistication. Passion and anticipation greet guests in the foyer where theatrical lighting sets an exciting mood, and a row of mirrors creates infinite reflection above a bespoke red carpet. The bar area is designed with a red velvet curtain drop, brass columns, marble standing tables and Alcantara grey padded walls. The dining area features marble flooring and grey velvet seating and a red velvet curtain wall. Featuring designs made for Moooi, Barovier & Toso, Flos and more, the restaurant Ludwig Zwei in the Bayerische Staatsoper is a contemporary twist on the poetic elegance that can only be found at the opera.
